2010 Community Survey **Executive Summary Report**

Overview of the Methodology

The City of Austin conducted a Community Survey as part of a comprehensive long range plan during February and March of 2010. The purpose of the survey was to gather citizen input as a cornerstone of the long range planning effort. The survey was designed to obtain statistically valid results from households throughout the City of Austin. The survey was administered by a combination of mail and phone.

ETC Institute worked extensively with City of Austin officials, as well as members of the Wallace, Roberts & Todd LLC project team in the development of the survey questionnaire. This work allowed the survey to be tailored to issues of strategic importance to effectively plan the future system.

ETC Institute mailed surveys to a random sample of 6,000 households throughout the City of Austin. Approximately three days after the surveys were mailed, each household that received a survey also received an electronic voice message encouraging them to complete the survey. In addition, about two weeks after the surveys were mailed ETC Institute began contacting households by phone. Those who indicated they had not returned the survey were given the option of completing it by phone.

The goal was to obtain a total of at least 1,200 completed surveys from City of Austin households, including at least 200 from each of the five reporting areas. These goals were accomplished, with a total of 1,311 surveys having been completed, including 245 or more from each of the five reporting areas. The results of the random sample of 1,311 households have a 95% level of confidence with a precision of at least +/-2.7%.

The following pages summarize major survey findings.

Major Survey Findings

- **Strengths of the City of Austin.** The aspects that the highest percentage of households rated as a “major strength” or “strength” for the City of Austin are: availability of arts, music and cultural amenities (79%), the University of Texas (76%), the State Capital (75%), unique local identity (74%), availability of parks and open space (73%), and quality of local businesses (73%).
- **Importance of Living Near Various Facilities and Amenities.** The facilities and amenities that the highest percentage of households rated as being “very important” or “somewhat important” to live near are: fire stations (93%), grocery stores (92%), hospitals and medical facilities (91%), parks, sports, and recreation facilities (87%), shopping areas (84%), place of employment (82%), sidewalks, biking and hiking trails (80%), and good schools (80%).
- **Potential Areas for Growth and Development.** The areas where households most support growth and development occurring are: near public transportation stations, stops, and routes (56%), centers outside of downtown (50%), and along roadway corridors (43%).
- **Transportation Issues That Should Receive the Most Emphasis.** Based on the sum of their top three choices, the transportation issues that households feel should receive the most emphasis from city leaders over the next two years are: ease of travel by car on freeways (49%), ease of north/south travel in Austin (37%), quality of public transportation – bus service (33%), ease of travel by car on major streets (31%), and ease of east/west travel in Austin (30%).
- **Allocation of \$100 Among Various Transportation Improvements.** Respondents would allocate \$27 out of \$100 for improvements to freeways. The remaining \$73 was allocated as follows: improvements to major streets throughout Austin (\$18), improvements to public transportation – bus service (\$14), improvements to public transportation – rail service (\$14), improvements to neighborhood streets (\$13), improvements to walking and biking systems (\$12), and “other” (\$2).

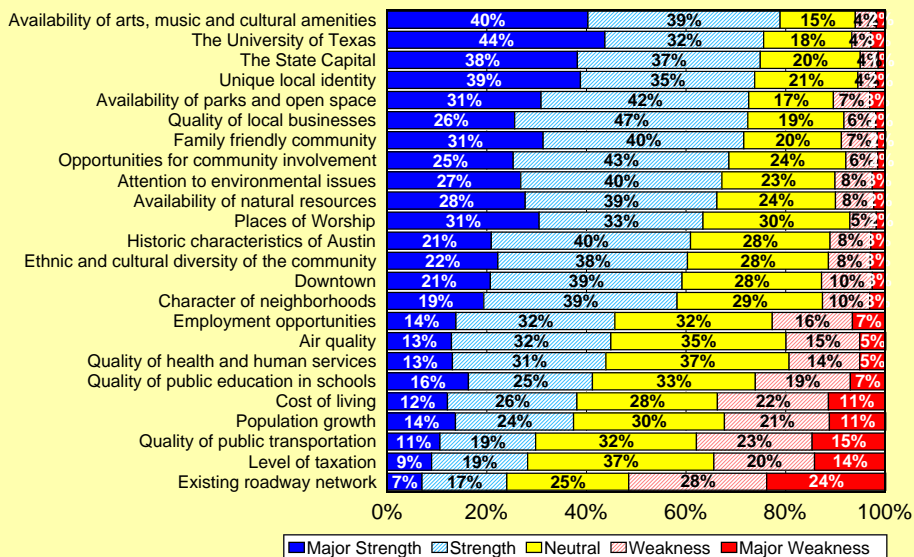

- **Future of Austin.** Based on the sum of their top four choices, the ideas that best represent households' vision for the future of Austin are: quality public schools (38%), affordable tax rate (32%), affordable housing (28%), high paying jobs/employment opportunities (27%), and reduced traffic congestion (26%).

- **Allocation of \$100 Among Various Capital Improvement Initiatives.** Respondents would allocate \$25 out of \$100 to improve the transportation system. The remaining \$75 was allocated as follows: develop health and human service facilities (\$21), repair and restore deteriorating infrastructure (\$16), develop public safety facilities (\$13), develop parks and recreation and facilities (\$9), develop community facilities (\$8), acquire open space (\$6), and "other" (\$2).

Section 5:
Open Ended Survey Comments

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Get rid of metro rail and start over. Waste of money!
Reduce property taxes, encourage business to locate in Austin and stop the toll road madness!
Keep Austin weird!
Too much growth has ruined this city. Now we have too much crime because of so many people.
We did not get a choice about being part of the City of Austin and if given a choice, we would have said "no".
The power in my house is always out. They are digging the underground lines up in the middle of the night.
Toll roads will never relieve traffic on IH35 until it is very affordable to truckers!
Finish Hwy 71 and 135 S connection! Traffic on southbound feeder road is horrible!
Thanks for allowing us citizens to provide input!
Please provide a more extensive transit service to areas outside the city limits of Austin. Please increase water supply also.
There are free ESL, why is there no free SSL.
Taxes for houses are too high. Constantly being increased when no improvements have been made by the city. Continue this practice and there will be no one to pay them.
In most questions, the wording doesn't allow me to express what I really want to say.
Thanks!
This was fun.
We should make religious organizations pay property tax and lower the taxes on undivided homeowners.
The focus of the Austin City Council seems to be on downtown and high-rise dwellers exclusively. There needs to be more attention paid to neighborhoods and single family homes sometimes!
Thanks for taking care of Austin. One of the best cities to live.
You just waste too much money. For example, your dysfunctional "bullet train." What a joke!
Taxes are way too high.
Please improve and address traffic and congestion issues in Austin.
1. I think we can be more "green" than we talk. 2. North Austin and South Austin might as well be in different states since the transportation system is so bad. 3. Austin's unique identity character, culture, music (oca business) are what have helped it succeed in the last few decades. Regaining this should always be a top priority. Too much development can be just as bad as undevelopment.
Greatest city in which we've lived, love Austin. Hope the suggestions offered will be beneficial!
Annexation of major suburban areas needs to also be considered.
City council should use cost analysis on projects electricity: nuclear vs solar power.
Move interstate I-35 ten miles east/force trucks to take hwy 130. Continue to improve public transportation. Need to decrease number of cars/trucks on the roads.
Need to curtail money subsidy for energy conservation.
Fix the streets and Willia Court is a zoo.
Leave health and human services to non-profit charities. Also, Austin has poured enough money into a functional metro rail system. Call it DEAD and move on. We can't ignore repair. Restore deteriorating infrastructure. Must be maintained as well as supply of water over next 150 years.
Property taxes are too high in Austin, especially in Travis county.
Please focus on humane goals rather than industrial or commercial goals.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Do not raise our taxes and our electricity/utility rates. We're all going to be priced out of our homes. Do not make it harder to sell our homes if/when the time comes.
More public parks. Integrated transit with rail across city, especially westside. Locate affordable housing and services as part of new developments near transit center.
I feel we need more police officers. Pay them a little more.
Rank handling within the city limits should be made illegal and illegal immigrants should be removed according to existing laws.
Improve transportation.
For this to be considered the musical capital of the world, it lacks diversity in music. Where are other genres of music represented such as jazz, blues, reggae, R&B?
Give us the freedom to live our life without interference.
1. There would be no traffic snarls on Mopac if UT started at 10:00am and finished at 8:00pm as seen during the same and UT breaks. 2. All trucks should have an exemption from the toll on 130 to ensure they use it as it was intended. 3. Add a fee if they use 35 instead.
Reduce property taxes. Fund schools thru general sales tax increase.
Restore and refurbish existing towers and buildings downtown. Don't build any new ones. Use only local contractors, legal local labors (US citizens). Let the music play in the original allocated areas of 7th and Red River. Let it be loud. Do not build residential buildings in that part of town. Let Austin be Austin for Austin's sake.
We need something done with the freeway, another lane or something, south Austin rail system.
You tax us, but won't let us vote on city issues. You jammed the airport down our throats.
It took more than ten minutes.
City of Austin needs more facilities that are free to the public and geared toward families with young children.
Too much traffic on Parmer Lane to William Cano.
We do not want Del Valle annexed into the City of Austin.
We need a HEB in Manor, TX!
The tax rate and cost of living make it unreasonable to live here. De Valle, though growing, continues to be ignored as a growing area. We need attention.
Give people more money on checks.
Keep taxes low, don't bring us into City of Austin. Improve quality of life.
We people are in very bad need of public transportation in rural areas.
As Austin is growing, it is losing it's unique characters and history. It is becoming far too expensive for the average public servants such as myself. Also the area around Lake Travis has been destroyed by poorly planned growth.
Thank you.
I don't think the city should encourage growth when we worry so much about water and traffic.
Bus service to town from Harris Branch.
Austin is a great city to live in. Need to improve public schools and public transportation, and it will be super.
I am concerned about displacement due to inner city gentrification, and high property taxes pauperizing citizens' capacity to stay in their homes. High property taxes are forcing older and poorer residents to sell central city homesteads. This is sad and a big black eye for Austin.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.

Too many free or funded programs. People need to work in order to prosper. Road and highway system is very weak. I imagine and know I-35/Riverside ranks in top 5 as worst area for traffic congestion. Taxes are too high and who monitors where it all goes. Look at our ALSD right now. Big deficit! Wow!

1. Our taxes are already too high. Lower them. 2. Stop allowing the fame idiots to monopolize the public comment period at city council meetings. They do not represent the majority of us. 3. Have the APD start enforcing the laws against bicyclists when they run stop signs and stop lights. People should respect bicyclists but bicyclists must obey the law. APD allows bicyclists to run Austin's streets like they're on the tour de France, and act like they have priority over automobiles. I ride a bike too, but I ride within the law, not like I'm above the law like so many here. They couldn't do that unless APD tolerates it.

Of all my years in Austin, it seems to me that the elderly are slowly being driven out by taxes and cost of living.

Fix the roads and highways. We spent an hour on 35th and Mopoc and 183.

I sincerely hope that this info will be utilized with care and compassion. Austin is great and I love living here, but I hope to be part of our solutions that can have some level of assistance to all our citizens.

When I moved to Austin, it was one of the least expensive places in Texas to live. What happened?

Traffic in Downtown is the worst!

Why not address treatment of animals who have no voice? City does not necessarily have to house and care for animals, but ensure/enforce responsible ownership.

Replace the current police chief with someone who will not lie to the people of Austin!

Austin has lost any advantages of living in a small city and has none of the advantages of living in a big city.

Like to decrease population. It sure was nice when it was 35,000 to 75,000.

More jobs for artists!

More conservative government. Lower taxes!

Need to improve the neighborhood parks.

Thanks for asking for residents opinions!

The major problem for Austin is high taxes and roads . Businesses don't want to move here. The film industry won't come to Austin because economic reasons. Taxes are too high for the film industry.

The City is doing a great job.

More bike trails.

The eastside of IH 35 remains the place to put what is least desirable. More neighborhoods in East Austin need attention. Repairing and restoring deteriorating infrastructure, not allowing overwhelming placement of title and housing in just east and northeast areas.

I am doing this from a hospital bed and it sure took longer than 10 minutes. I doubt it will do a bit of good.

Against bike roads! Double taxation on existing roads! Want to save money? Take a pay cut like the rest of us. Waste of money on those city cars.

Enforcement of City codes.

The city council members disproportionately represent the chamber of commerce interests and they disregard the widening inequality. They need to invest in meaningful and long term job training for the working poor.

We would like to get the upside of civilization in southeast Travis City, like groceries and transportation, not the downsides like trash and jails!

Jobs, jobs, jobs; diversify economy.

The Red River area is being ruined by rude and overly aggressive homeless people. This is in part due to having their shelter in the center of the district.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
The population in Southeast Austin is growing real fast and they need better roads, public transportation routes, community centers and grocery stores.
City leadership is heavily politicized and overly micro managed.
I would love to expand the recycling to include household oils. There is only 1 drop off and it is not near me.
Results of survey should be made available to the public and participants should receive notice of surveys received or counted.
I love to walk, but pit bulls, dogs and their owners have limited my walking. I wish these dogs were banned in the city limits.
Daycare should be more affordable. Or have a program that assists households that have to have one parent stay home full time and one parent work full time. With today's economy, it is very difficult to support a household with one income. I go to school full time and work the other days to support my family. My finance has to stay home with our 6 month old daughter, because good daycare is very expensive.
1. Public access to open space. 2. Capital Metro needs to be more accountable! Tired of money for public transportation being wasted.
It is too late. You have already ruined this city. At one time it was small and nice, but not any more.
The City of Austin and surrounding areas are a great place to live overall!
No more music in neighborhoods. Let the residents have the peace and quiet they moved into the neighborhood for. Build more roads before asking people to move here.
Thanks for doing this survey.
It is essential to get more jobs into Austin and the surrounding areas.
Austin is a good city, but it has major problems. When I attempted in the past to make suggestions on how to improve their school situations on the eastside of town, they asked me to volunteer my time to correct their problems. I live in another school district. Police Department has gotten bad rep. But when Acevedo took over, things got better. Please stop playing the race card. We are all one in the eyes of the God.
Austin is a great place to live and I feel lucky to be able to stay here during the construction work slump.
Property taxes are too high. Too much money goes to Austin Community College!
Insurance is too high! Do something about it.
It has been a pleasure living here in Austin, Texas!
City should guide the redevelopment of Highland Mall, mixed use of urban and village.
I-35 needs to be widened. There need to be an entrance ramp on 183 between I-35 and Cameron East. That whole loop at I-35 and 183 needs connections: 183 going north to I-35 and I-35 going east onto 183.
Improve on and off ramps on the local highways. Space them and this will reduce congestion. Houston, Dallas, and San Antonio do this with great success.
Traffic congestion must be addressed. Rail is too costly and unproven. More open space and recreational areas.
Traffic is Austin's #1 quality of life problem. There are no reasonable east-west highways, despite a huge population growth west of Austin to Lake Travis. Get a clue!
Light rail system. More equity for neighborhoods in southeast and northeast Austin.
Maintain the environment for sure!
They are all important. Too much attention to environmental issues. There is no balance. Austin Energy's generation plan is too costly and will impact the desirability of Austin for a place to do business which would impact economic growth of the city and job opportunities.
Capital Metro buses run infrequently. Bus routes should be simple and not so complex.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
I would like to have free medical insurance.
Partnered with a male Methodist minister for more than 30 years. It is a shame we can't legally marry.
Keeping crime down. Having a safe community to live.
Would like to see more places available in South Austin for lifetime learning classes. Would like to be listened to when I called to object to a large suburb being built off Fitzhugh Rd, or when the road was not built to accommodate a larger amount of traffic being 2 lane with many curves.
I think it's downright criminal the way the City has refused to help the state to complete Mopac to IH 35 in the south part of Austin, and forced all the traffic onto Brodie Ln.
Representation on City government representing the City as opposed to just individuals centrally located.
Police seem to do a good job. But courts are too lenient on violent criminals. Illegal aliens who commit crimes should not be allowed to stay!
The City of Austin needs to get more serious about enforcing illegal immigration laws and severely penalize those businesses that hire illegal immigrant labors.
Some sidewalks are distorted, not to mention some roads.
I strongly support the required use of rain water collection system.
I would like to see more development within East Austin. But this development needs to be accessible to all, especially affordable housing. I feel some of the development that has been going on has been running individuals out of their neighborhoods instead of keeping them there. I am tired of seeing other areas receive better improvements. I want to see equality throughout.
Roads, roads, roads!!! Oakhill/Hwy 290 W needs to be on a high priority list.
Keep working to bring more businesses to Austin area. Focus on roads not public transportation.
Connecting Hwy 1 to I-35.
We need better housing at a price we can afford instead of paying our grocery money for bills and poor housing.
Generally, too much government involvement and lack of respect for property rights.
The actions of Congress and this unqualified Kenyan president is affecting our city in a very negative way.
Riverside Drive needs serious attention.
SH 45 needs further attention to alleviate the congestion going through Brodie Ln with a connection closer to the increased population.
Thank you for inviting me to complete the survey.
I'm very disappointed to notice disparity between elementary campuses in AISD.
Homeless is a huge issue. Need to get them off street corners. Have problems with them in our neighborhood using areas near homes as bathrooms. Tired of constant guilt trips when driving and encountering beggars.
Traffic is a major problem!
I am a little perplexed about why I got this, but I am happy to share my opinions.
Austin is growing very fast, and now is the time to hire more local law enforcement officers.
I don't feel HOA fees should be necessary. Everyone maintains their own yards. I don't feel we should be responsible for the extra expense!
Quit trying to be all things to everybody. Concentrate on transportation (not rail), public safety and education.
Lack of coordinated traffic lights is frustrating!
Stop building condos Downtown! People come to Austin because it is small and charming. Now they call Downtown "Mini Manhattan." I want to see the Capital and UT tower from South Austin like I grew up with.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Reduction of Downtown development and high rise buildings. Not enough resources to support growing population.
I do not want a gravel pit in this area. No to TXI-we have no food stores in this area.
We would love to see more libraries, pools, parks, and etc in the more suburban areas of Austin, especially West or Northwest, given the rate of growth in these areas.
Please address panhandling by homeless and other groups.
The cost of water is killing me: \$125.00/month.
City leaders pay attention to the whole city not some areas of the city.
We are encouraged to buy local. Why did we buy rail trains from another country? Why can't toll roads and other traffic ways be developed as quickly as they were? Also why is a foreign country in charge of the toll roads? As a Texan, I would have invested in a toll road vs. stock market any day. I am tired of seeing roads and etc built and designed by idiots. These things should be planned out better and far into the future in design. Quit doing things halfway while still spending the full amount of money. You are ruining the music business. Don't give permits to build if they can't play the music. If people want to move close to Venue, they should live with the noise and traffic. Weirdness and things that made Austin what is was, are going away. We should be tougher on people that trash our city. I like the rebates for energy efficiency offered by the City. The inspectors should do a better job to make sure the people do the right job. Neighborhoods and areas should be kept clean regardless of demographics.
Taxes and utilities are too high. Too much traffic. Too many small businesses closed.
Schools on the Eastside are not only extremely segregated, but provide an unsatisfactory education to our community.
Too many condos are being built! Why don't we improve I-35 before we encourage population growth?
Questions oriented to the interest of the city government.
Sidewalks must be clear of vehicles blocking those parking on driveways.
1. Why do seniors 65 or older who never had any kids, or have kids who are grown, have to pay school taxes? 2. Why do seniors 65 or older have to pay high property taxes, high utility bill and etc even with homestead?
Austin has to stop trying to be all things to all people and just become a city where anybody would want to live.
My responses about inter-city rail: though this survey is for the City of Austin, I feel like partnering with companies, railroads, etc that can provide the inter-city connection can help our city out in many ways. Thanks for doing this survey. I was excited to fill it out!
Reduce property values so that taxes can be lowered. Reduce governmental leaders' pay checks. Reduce AISD superintendent's pay. She is not doing a good job. Austin does not need to outsource low performing schools. We don't have the money to do this. Any idiot could have done this in order not to deal with real issues.
Please finish up the roadways in South and Southwest Austin and without turning them into toll roads. Why is South Austin always left half done or the cheapest way?
LCRA is out of control-way too expensive for water. Overall, I would rate Austin a B+ place to live.
Do what we do better, not just try to make it bigger!
I love Austin, TX. Great place to live.
The poor are getting poorer and the rich richer, more personal contact is needed.
The city should work on the homeless problem downtown. Dangerous.
Get rid of Capitol Metro Management.
No one will pay \$8 per ride to ride light rail. We pay less in gas everyday.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
I'm glad I was asked for my opinions because I live outside the Austin city limits in the ETJ. I want the City Council (who I can't vote for) to quit taking away the "good stuff" proposed for Eastern Travis County (Villa Muse) and help us to keep dumps and gravel mining operations out of this area. I am very concerned with the quality of the well water in Eastern Travis County. Would like Austin to bring us Austin water!
It would be nice to maintain a cap on utility companies outside Austin from charging more than in the intercity for water, gas, and electricity.
Public transportation should extend out towards the Town of Bee Cave.
Affordable housing for people who work hard. Don't spend on luxuries to give. Don't buy useless stuff. Help the workers and immigrants not the spoiled and criminals.
Preserve the old neighborhoods and old Austin structures. Keep Austin livable for all! More neighborhood farmers markets and community gardens.
Property taxes are ridiculously high and are a deterrent to those hoping to buy a home in Austin.
I would like growth to slow down and more focus put on improving quality of life.
Add more Disc Golf courses and work on the freeways.
How does the City plan to transport the people moving into Downtown? The new people need transportation from condos. Keep education, quality of life and research as a high priority and business will continue to move here.
So glad you are asking! To make the Austin area an amazing place to live is not that hard but it takes a dedicated leadership with a clear vision supported by the people, business, and science! It takes a long look into the future and then taking step by step goals to achieve. It can be done! I think the leadership has to plan long range and not just for the moment though bits of the moment are good. This community is teaming with brilliant, thoughtful, and creative intelligence that could be used to help! We would if done right.
The I 35/Ben White Interchange is drastically needed for the south to go east and west. It seems construction has been totally abandoned and toll roads made a priority. Sometimes, it takes me 30 minutes to go one mile from Ben White to Stassney and get on I 35 southbound. Please help!
Fix traffic problems. Fix drop out rate.
Air quality: We are being blamed for Mexico's trash burning which is airborne and coming north, ruining our air quality. Also, a water reservoir would be a good idea when it rains. If we are worried about water, we could be saving it when we do have rain.
Schools.
I would like the homeless to be addressed, but government needs to provide jobs for them. Teach them to work & help themselves.
Poor management of City's tree cutting contractor.
Very fortunate to live here.
Improve my community and public safety and we need more police throughout the entire state of Texas.
Better job managing growth.
Taxes put residents in a "Catch 22" situation.
1. Paying too much for waste water. 2. Street lighting.
Crime and out of control businesses (truck trafficking) need to be reduced.
Need a better public transportation and a better school system.
Do something about the traffic.
Too much attention to environmental services and the City is over taxing for that reason.
Keep up the good work.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Reduce crime.
Local area needs as much attention as upper class sections.
We need some changes-nothing has changed since living here.
Job improvement.
Put City money into a downtown destination development similar to Riverwalk in San Antonio.
I am very against additional toll roads. The traffic makes life very stressful!
I am handicapped and can't walk good.
Austin needs to continue attracting businesses. Keep improving Downtown and providing homes for the homeless and those in need. We need rail system to reduce traffic. Bring a more diversified ARTS community, including major pieces and collections.
A public parking area. Make Downtown more accessible.
With the extreme & rapid growth of Austin, the need for better mass & rapid transit is paramount!
If this survey is important for the community, I would hope City officials act on the questions asked.
Glad this is being done. Thank you.
Better schools. Lower property taxes.
Scrape light rail and all the other unworkable ideas connected to it. Cast aside political correctness and just govern by the laws of our country. You may also fire the police and fire chief at your earliest convenient time.
Thank you for this survey. Let's be sure to use it in a way that will be a burden to our tax-paying children & grandchildren.
I love Austin!!!
Extend CAP Metro Rail to South Austin.
Instead of the \$1 going to political parties on tax returns, it should be directed to human services if chosen to donate the \$1.
Get the trucks off I 35 and give them a discount on the toll roads. Safety first.
Need improvement on highways and roadways. Lower taxes.
We are glad that the City of Austin is growing, but we need more employment.
Trying to solve complex problems with answers that allow for no nuance seems foolish.
Traffic backlogs from unfinished roads is embarrassing. Property tax assessments (appraisals) are way too high.
The City has grown big enough. We don't want to be another Dallas or Houston.
I would be in favor of increasing taxes to improve transportation.
Need an upper deck highway over 6th St/Downtown area. More neighborhood patrols especially between 10 pm and 4 am.
Keep bicycles off roads. Reduce taxes.
We love living in Austin and look forward to its continuing growth and becoming a better place.
Address air quality.
No rails. Wastes money and no benefit.
I think we covered all those areas! Education, affordable housing, ability to make a livable wage, and health services for all.
Property taxes are too high.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Improve education and job opportunities.
Delighted city is reaching out.
Public transportation is a must and so is energy conservation.
Stop the rapid building.
Conditions of roads/streets need to be improved.
Intervention into suburban isolation via flexibilities and updating existing antiquated zoning regulations. Design for human beings!
I would definitely like to see more enhancements in the areas of good housing, good places to work, good schools/universities, and public transportation.
Affordable healthcare is very much needed in Austin. More communities interacting with each other to help each other.
Glad taking interest in public opinions
Too much attention to Downtown. Too little attention to parks and public transportation.
Don't trust Cap Metro on basic services.
Slow down growth/development on eastside neighborhood. Keep cultural background.
Improve transportation.
Keep a realistic perspective on crime; don't waste a majority of dollars on police dept.
Important good public transportation. Well trained police force.
Great place to live; terrible roadways; no need for street cars, toll roads, and high speed rails.
I hope we can make Austin an affordable place to live.
City officials keep promising to fix the traffic congestion issue, but they never do. They need to work with what they have. They need lights on timers which they have been promising for more than 30 years.
Improve police department, youth programs as well! Kids are our future!
Reduce traffic and improve deteriorating infrastructure.
Austin is a good place.
Traffic is really bad. I walk to church and it is very dangerous to cross the street. There need to be more crosswalks in the City.
Lower electric bills. Shut down Code Enforcement Dept.
Please mail results to public who participated and thank you for asking!!
I visited several other cities, and I still think Austin is one of the best for living. The reasons are: 1. Safety. 2. Education. 3. Many high-tech companies. 4. Cost of living. 5. Many green areas. 6. Cultural diversity.
I would like the landfill in East Austin closed. Austin's development is growing near landfill. It is long overdue to be closed. Thank you!

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
We love our city and consider ourselves advocates for "enlightened" diversity, NOT diversity at any cost, primarily concentrated among ethnic groups. We welcome diversity in our schools and neighborhoods and church have friends from different backgrounds. Even our African American friends are outraged at the amount spent to pay for music festivals and the like, in a self conscious attempt to "attract" diversity. It is forced, discriminatory, uninformed and insulting. We also feel strongly about the City's recent "confiscation without compensation" policy. Whereby they have imposed ridiculous rules on home owners and improvement in size and structure. Many elderly people have been harmed by this as they can no longer sell their homes or lots to someone who hope to tear down or add on substantially. This has also penalized young homeowners who purchased small bungalows on large lots hoping to add on to meet their needs of growing families. For this reason, people are moving to Westlake and Rollingwood. Thank you for your efforts on behalf of our community.
Please focus more on preventing and cleaning up graffiti. No more toll roads.
There is a major shortage of parking in Downtown. This City encourages drinking and driving because it provides lots that have tow hours in the early morning hours. More people would leave their cars Downtown and take a cab home if there were better parking options.
Property taxes are too high. Please fix traffic congestion.
Health and human services now. I am fearful I will die or become critically ill soon. Cannot afford care.
In order to help improving quality of life in Austin, we need an excellent public transportation.
It's about time for more concentration on all of the prior (suburban and rural) areas in the "annexed" areas.
Strong incentives to develop east of I 35. Strong disincentives to develop the Colorado River.
Attention to Oak Hill/Hwy 71 congestion is needed now. Many roads have been improved, but this area is in need of attention now. Also, many pot holes are not being filled on area roadways and trash on Mopac & 290 W is not being cleared by highway crews. It is very dangerous for traffic daily.
Our leaders must concentrate on improving education, especially schools that have received failing grades! Lack of education is a basis for lack of self-esteem and a road to crime!
What we love the most about Austin is the arts, the lakes and rivers, and the environmental protection.
Extend bus services to business parks like Riata Trace Pkwy. Improve local freeways, but don't extend them. Make Austin friendly to small businesses.
No more toll roads!
1. What happened to big "Box" retailers having a better structure appearance? Bank of America at Slaughter & Manchaca is literally a Box. Not pleasant. 2. When do major roadways (Slaughter Lane) become too congested to accommodate a bicycle lane? It should be eliminated for safety concerns.
Fix the roads. Finish I 35 & Ben White! AISD needs to rank higher! Our parks need love. UT is important! Too much crime on the eastside.
Austin is in danger of losing sight of all things that made it great if development is not better managed and slowed to a sustainable level. Don't ruin it.
My city taxes keep going up.
I'm glad that this study is being done.
Main concerns: Public education in ISA District and heavy congestion on I 35. Need an alternative freeway or other solution.
Austin doesn't need to grow anymore. We need to improve what we have.
Interesting survey.
I'm interested in improving public transportation. It really needs improvement.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
City of Austin voters have voted light rail down six times and still, it was put in, only in affluent areas, not where it's needed, in poor areas. Light rail is a joke.
Homeless should not be allowed to panhandle. It enables them to stay homeless.
Don't try to change Austin into Dallas or Houston.
Focus more on community, elderly, & young population. More job opportunities.
Don't destroy historic downtown.
Happy to help!
Fix light rail now! Support homeless and those with lower income. Austin is a very rich town. So in times of economic downturn as severe as this, we need to focus on humanity and support those less fortunate.
Austin is the best city to live. But we do need more businesses.
Keep Austin weird!
Austin's Colony water needs to be cleaned up. Everyone buys drinking/cooking water. Added expense.
Austin is, or was, a great place to live. We need desperately a reliable and working public transportation system that reaches all areas of town. Also, we were known as the "Live Music Capital of the World." People moved Downtown KNEW that we have a hot music scene. If you can't stand the music, move to the suburbs!
Austin is a wonderful and great city. However, too much interest are put on "special interest" groups, like bicyclist, environmentalist, and big business owners.
Stop trying to factor race & Latino into decisions on Austin's future. All citizens are "Americans" and America has one & only one language, which is English!
Public transportation in our area is really bad. There is no center turning lanes and speed is a big problem.
Austin is the ONLY city in Texas that I would live. However, property tax is excessive. Considering the lottery is paying for education (in addition to the tax), why do kids a)need their supplies DONATED? B)are not that well educated?
I am incredibly disappointed in the lack of public land for trail riding.
Lower tax rates. Better quality of life and better education
I value the natural amenities in Austin including parks and open space. Traffic congestion is killing Austin.
Build SH 45 SW.
Water conservation is critical. Is there enough water to support future population growth?
Bicyclists should have licenses.
Austin cut funding for mental health services. I would like to change that.
I understand that city growth must occur. But it is important to remember that we are a community, rich or poor. Let's not forget those who cannot get what the lower middle class or higher can get.
I would really like to see greenbelt access on Williamson Creek extended under I-35 to link east and west, and improve hiking recreation along Williamson Creek east of I-35 and Onion Creek upstream of McKinney Falls. I would like to be able to walk to the shops around Fiesta from Dove Springs neighborhood, which is not possible currently. I would like to see more pocket parks in Dove Springs, possibly utilizing Williamson Creek and improvement on parks like Ponciniana Park. I think this would improve our community and city greatly, possibly taking strain off Zilker Park and Barton Creek Greenbelt. I think you might find interested volunteers in Dove Springs neighborhood.
Lower property taxes, or do away with annual re-assessment, keeping rates from date of purchase.
Enough with the homeless and bicycle issues. No more funding for these types of issues.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.

The City officials need to concentrate on providing basic services at a reasonable cost (police, fire, EMS, roadways and trash/recycle). The City needs to hold Cap Metro accountable for a poorly run bus system, no Dillo service, and a train that is late & over budget. I'm tired of Cap Metro getting so much sales tax while police and fire departments are forced to do without and to make budget cuts. The buses are tearing up the streets and adding to traffic congestion.

Please make the City departments work together and put a departmental conflict resolution plan in action. Do not discriminate against locally owned nationally branded businesses.

When I drive into Austin, I see the homeless at every corner which is very disturbing. Please do something about this. I have lived in the Austin area for over 35 years. I 35 north and south haven't changed much. Traffic is horrible!

I hope to stay in my house till I am old. I will probably not be able to afford the taxes that go up every year. Last year, I paid \$5,800 for a house I only spent \$97,600 to buy in 1995. Just tell the cops we cannot fund every toy they want. The police have a poor record of solving property crimes.

Get an underground.

Fiscal responsibility.

Too much City control.

I think the emphasis in transportation needs to be taken off of cars. Streetcars that take people from one walkable/bikeable center to another are a good solution to give a more European style (both residential and commercial). I think that with the transportation infrastructure in place, the rest of the design will fall into place.

Many old parks need repair. I-35 is a mess.

Too much reckless driving and speeding on the streets of Austin.

We need to keep maintenance of Zilker Park & Lady Bird Town Lake Trail up. The bridge over Lady Bird Lake on Mopac needs to be expanded. We need to encourage people to buy houses close in and discourage suburbs so that we can have effective transportation. Also, we need to fix the bottleneck to the airport and clean up the area around the airport. It is an embarrassment as soon as you leave the airport area. Get rid of all those stoplights east and west of airport.

Give more time at City Council meetings. Monitoring operation of recreational gyms. Supervisor Patque Zayagouse is rude. She doesn't allow community to provide free athletic activities to young volunteers. Previous supervisor did well in this area.

Lead the country in green energy.

Quit trying to please everyone. Try to improve budgeting. Get rid of speed bumps in neighborhood. Less money spent on libraries. Have a broader range of music.

More parks.

Very glad to participate.

Make the survey a little shorter and more to the point.

Don't jack up the electrical meters, please.

More food banks.

More human services available.

I love Austin and I don't want to be anywhere else.

Look out for the roads and freeways. Also lower the taxes.

Appreciate the study.

Hope something come out of study.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Taxes are the major problems.
Need improvement other than Downtown.
Get urban rail on the ballot for November.
No toll roads.
Help the homeless.
Zip code 78724 belongs to a low-income area, and the City of Austin seems to provide services very discriminately to higher income areas only, such as police services and public transportation.
Keep Austin weird. Love it here!
I wish the suburbs, like Pflugerville, had coverage by the APD instead of the sheriff. I don't feel we get good value for our tax dollars from the sheriff.
Be smarter. Better road planning. Going green is good and go about the right way. Less cost and better planning.
Great survey.
We need more services for the elderly.
If tolls were lowered we'd have more people use the roads.
Have events for upcoming businesses. Create jobs for homeless. Improve healthcare for everyone.
Improve highways.
City Council should consider cost of "green" energy more.
Fixing the infrastructure and home owners pay too much taxes.
No more toll roads!
More family friendly activities that are financially reasonable. Informing residents of activities such as billboards with postings of activities.
Streets need to be fixed.
Level the tax situation fairly. Make all the businesses pay taxes also.
Homeless should receive job training.
You need to help homeless people only if they truly need help.
Improve the safety of walking and biking. Also improve the bus system.
Austin is a great place to live. It is too bad we can't hire our fire chief, our police chief or our superintendents for our school from Austin. It not from Austin, then at least from Texas.
Downtown should be more affordable. Walking and biking should be developed in places other than Downtown where few can afford to live.
They need to improve the job searching process. Now all the steps you have to go through at the agencies is not efficient.
Do something about highways. Not one day goes by I don't hear about someone complaining about the traffic.
Hopefully this study will make a difference.
I like living here.
Taxation improved or cut. Education is always important.
Improving roadways and education.
Highway 35 congested.

Community Survey for the City of Austin

Q23. Please share any additional comments you feel are important to this study.
Would probably use public transportation if it came further south. I go to Downtown Austin as seldom as possible because of traffic congestion and parking issues.
Austin could very easily join San Antonio, Dallas, Fort Worth, Houston, Albuquerque, Phoenix, Atlanta, etc as a city with a true professionally managed garden. If our \$450,000 annual visitors paid a \$3.00 admission, the annual budget could be tripled at no additional expense.
We need more police patrolling through neighborhood. Fix streets (potholes). Address unattractive houses (dirty yards, junk).
It is a great city.
More and better sidewalks.
No toll roads and more parks & recreation. Very important for families to have walking & biking trails.
Focus on crime reduction in certain areas of town without bothering the law abiding citizens there.
Take time to think before making decisions.
They need to be more explanatory, not so general in questions they are asking. Address the issues after fixing the problems, i.e.. transportation, crimes, and etc.
Put a Wal-Mart out in this area for people out here.
Improve public transportation.
There shouldn't be any toll roads or any rail systems developed.
Too many trees being cut down.
I would like to see more well planned development in North Austin. Show the concern for us as you do have for Downtown.
Thanks for asking me to participate.
Focus on quality of life. Focus on reducing traffic congestion. Provide alternative bike paths, rail, and bus, and encourage flexible work schedules.
ETJ residents need to be able to vote regarding changes that happen via the city that affect us. We live out here. Dump toll roads!
Austin is a nice city with lousy public transit and expensive housing, but a refreshing weirdness and musical vibe.
Austin is growing too fast. Austin should create its own economic model that does not include ever increasing spending. Austin should think smart, not greedy and find a way to match housing and job in areas, so that traffic is reduced, fuel consumption is reduced. Very few people can afford to live close to where they work.
Grocery store is needed in Manor. Something for children to do is needed in Manor.
Watch out more for over the speed limit offenders on neighborhood streets. For example, the speed limit is 15 MPH on Farfield St from Lamar St to Jamestown St, but all traffic moves faster at about 30 MPH.
Study is a bit lame. No long term planning for streets. No process for neighborhood.
Clean water sources. Spend more money on cleaning water.
We need more recreation centers in Northeast and Central areas.
Property tax rate is too high.
There is a lot of difference in the way the City runs itself.
Enjoyed taking the survey.
Improve pedestrian access to grocery stores and shopping in the outside of Austin.
Focus on education. More local clinics. Chicago has good homeless programs.

Q23. Please share any additional comments you feel are important to this study.
I think the important issue right now is to improve our roadways and improve traffic.
Retirees who live on a fixed income are feeling being "squeezed" out of living in Austin every time there is a tax increase.
The City should be more careful with the implementation of speed bumps as they slow down critical time for emergency responders in suburban neighborhoods.
City has too many people and the travel is horrible.
The allowance of "homeless" people to stand on every street corner in Austin is annoying. I'm tired of every time I walk out the door, I will be pestered for money at least a dozen time. A homeless man even knocked on my front door to ask for money. Something needs to be done to stop this behavior.
The City needs to work on the highways. I've never lived anywhere that I've had to exit the highway just to get on another highway. Strange.
I love Austin. I do wish we would clean up graffiti around town. There is no reason to have graffiti on bridges, etc. It makes our city look trashy. Also, I am not feeling as safe as I used to here. Too much crime in Downtown Austin.
Great police work. I suspect that drugs are being sold from neighborhood homes.
The most important things are hospitals and medical facilities.
My daughter and I moved here from San Jose, CA 2 years ago and we love it here!

Section 6:
Survey Instrument

**A Few Minutes of Your Time Will Help Make the City of Austin a
Better Place to Live, Work and Play!**

Dear Austin Area Resident:

Your response to the enclosed survey is extremely important...

You received this survey because you are a resident of the City of Austin or its extraterritorial planning jurisdiction. The City of Austin is conducting a comprehensive long range plan for our community. A cornerstone of the planning effort is citizen input and involvement, including the enclosed citizen survey. Your household was one of a limited number selected at random to receive this survey, therefore, it is very important that you participate.

We appreciate your time...

We realize that this survey will take approximately 10 minutes to complete, but each question is important. The time you invest in completing this survey will aid the City of Austin in taking a resident-driven approach to making decisions that will enrich the future of our community and positively affect the lives of its residents.

Please complete and return your survey within the next two weeks...

We have selected ETC Institute, an independent consulting company, as our partner to administer this survey. They will compile the data received and present the results to the City. **Your responses will remain confidential.** Please return your completed survey in the enclosed postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061.

If you have any questions, please feel free to contact Matt Dugan with the City of Austin at 974-7665. The survey is a tool that will benefit all residents. Please take this opportunity to let your voice be heard!

Sincerely,

A handwritten signature in black ink, appearing to read 'Marc A. Ott'.

Marc A. Ott
City Manager

Si usted tiene preguntas or no habla ingles, por favor llame al 1-888-801-5368 y habla con Terry Gracias.

Thank you for taking the time to complete this important survey. Please circle the response that most closely matches your opinion. YOUR RESPONSES ARE CONFIDENTIAL. When you are finished, please return your survey in the postage-paid envelope addressed to ETC Institute, 725 W. Frontier Circle, Olathe, KS 66061.

1. Using a scale of “5 to “1” where “5” is a Major Strength and “1” is a Major Weakness please rate each of the following aspects of life in the City of Austin.

How would you rate the following	Major Strength	Strength	Neutral	Weakness	Major Weakness
A. Availability of arts, music and cultural amenities	5	4	3	2	1
B. Ethnic and cultural diversity of the community	5	4	3	2	1
C. Family friendly community	5	4	3	2	1
D. Availability of natural resources	5	4	3	2	1
E. Quality of local businesses	5	4	3	2	1
F. Character of neighborhoods	5	4	3	2	1
G. Quality of public education in primary & secondary schools	5	4	3	2	1
H. Availability of parks and open space	5	4	3	2	1
I. Employment opportunities	5	4	3	2	1
J. Historic characteristics of Austin	5	4	3	2	1
K. Level of taxation	5	4	3	2	1
L. The State Capital	5	4	3	2	1
M. Places of Worship	5	4	3	2	1
N. Cost of living	5	4	3	2	1
O. The University of Texas	5	4	3	2	1
P. Unique local identity	5	4	3	2	1
Q. Opportunities for community involvement	5	4	3	2	1
R. Attention to environmental issues	5	4	3	2	1
S. Downtown	5	4	3	2	1
T. Quality of health and human services	5	4	3	2	1
U. Quality of public transportation	5	4	3	2	1
V. Population growth	5	4	3	2	1
W. Air quality	5	4	3	2	1
X. Existing roadway network	5	4	3	2	1
Y. Other: _____	5	4	3	2	1

2. Which FOUR of the items listed above in Question #1 do you feel are MOST IMPORTANT to be MAJOR STRENGTHS in the City of Austin? [Using the letters above in Question #1, please write in the letters below for your 1st, 2nd, 3rd, and 4th choices, or circle ‘NONE’.]

1st: _____ 2nd: _____ 3rd: _____ 4th: _____ NONE

3. Since you have lived in the City of Austin, do you generally think the quality of life is better, has stayed the same, or is worse?

_____ (1) Better _____ (3) Worse
 _____ (2) Stayed the same _____ (4) Not sure

4. Following is a list of “facilities and amenities” in Austin that may be close to where you live. For each of the following facilities or amenities, please indicate if it is “Very Important”, “Somewhat Important”, “Not Sure, or “Not Important” that you live close to the facility or amenity. (Circle the corresponding number)

How important is it to live near	Very Important	Somewhat Important	Not Sure	Not Important
A. Good schools	1	2	3	4
B. Shopping areas	1	2	3	4
C. Public transportation routes	1	2	3	4
D. Parks, sports, and recreation facilities	1	2	3	4
E. Fire stations	1	2	3	4
F. Hospitals and medical facilities	1	2	3	4
G. Colleges and Universities	1	2	3	4
H. Sidewalks, biking and hiking trails	1	2	3	4
I. Banks and financial institutions	1	2	3	4
J. Place of employment	1	2	3	4
K. Major city streets	1	2	3	4
L. Highways	1	2	3	4
M. Police stations	1	2	3	4
N. Arts, music and cultural facilities	1	2	3	4
O. Grocery stores	1	2	3	4
P. Dine-in restaurants	1	2	3	4
Q. Libraries	1	2	3	4
R. Places of worship	1	2	3	4
S. Community gardens	1	2	3	4
T. Child care centers	1	2	3	4
U. Other: _____	1	2	3	4

5. From the list above, which **THREE** of the facilities or amenities do you think are **MOST IMPORTANT** for you to live near? [Write the letters for your top three choices below using the list in Q4 above.]

1st choice

2nd choice

3rd choice

NONE

6. From the following list, please check the **THREE (3)** areas you would most support growth and development occurring.

____ (1) Downtown

____ (2) Centers outside of Downtown

____ (3) Along roadway corridors

____ (4) In suburban areas

____ (5) Near public transportation stations, stops, and routes

____ (6) Other: _____

____ (7) None

7. Several components of the City's transportation system are listed below. Please rate your overall satisfaction with each component of the City's transportation system on a scale of 5 to 1 where 5 means "Very Satisfied" and 1 means "Very Dissatisfied."

<u>How satisfied are you with:</u>	Very Satisfied	Satisfied	Neutral	Dissatisfied	Very Dissatisfied	Don't Know
(A) Ease of travel by car on freeways.....	5	4	3	2	1	9
(B) Ease of travel by car on major streets	5	4	3	2	1	9
(C) Ease of travel by car on neighborhood streets....	5	4	3	2	1	9
(D) Ease of walking throughout Austin.....	5	4	3	2	1	9
(E) Ease of bicycling throughout Austin.....	5	4	3	2	1	9
(F) Quality of public transportation (bus service).....	5	4	3	2	1	9
(G) Ease of north/south travel in Austin	5	4	3	2	1	9
(H) Ease of east/west travel in Austin	5	4	3	2	1	9
(I) Ease of travel from home to downtown Austin....	5	4	3	2	1	9
(J) Existing walking and hiking system throughout Austin.....	5	4	3	2	1	9
(K) Existing bicycle system throughout Austin.....	5	4	3	2	1	9
(L) Other: _____.....	5	4	3	2	1	9

8. Which THREE of these transportation issues do you think should receive the most emphasis from city leaders over the next TWO years? [Write in the letters below using the letters from the list in Question 7 above.]

 1st 2nd 3rd

9. If \$100 were available for the City of Austin to fund TRANSPORTATION IMPROVEMENTS how would you allocate the funds among the categories of funding listed below? [Please be sure your total adds up to \$100.]

- \$_____ Improvements to freeways
- \$_____ Improvements to major streets throughout Austin
- \$_____ Improvements to neighborhood streets
- \$_____ Improvements to public transportation, bus service
- \$_____ Improvements to public transportation, rail service
- \$_____ Improvements to walking and biking systems
- \$_____ Other: _____

\$ 100 TOTAL

10. Several ideas for the future of the City of Austin are listed below. Using a scale from "5" to "1" where "5" means "Strongly AGREE" and "1" means "Strongly DISAGREE," please indicate your level of agreement with the following:

The City of Austin's Future Should Include the Following:	<i>Strongly Agree</i>	<i>Agree</i>	<i>Neutral</i>	<i>Disagree</i>	<i>Strongly Disagree</i>
A. Affordable housing	5	4	3	2	1
B. Quality public schools	5	4	3	2	1
C. Adequate water supply	5	4	3	2	1
D. Unique local identity maintained	5	4	3	2	1
E. Health and human services available to all residents	5	4	3	2	1
F. More open space and parks	5	4	3	2	1
G. More recreation and sports facilities	5	4	3	2	1
H. Affordable tax rate	5	4	3	2	1
I. Historic and cultural resources preserved	5	4	3	2	1
J. Climate protection	5	4	3	2	1
K. High paying jobs/employment opportunities	5	4	3	2	1
L. Environmental and natural resources protection	5	4	3	2	1
M. Increased investment in deteriorating infrastructure	5	4	3	2	1
N. Crime reduction	5	4	3	2	1
O. Strong economy maintained	5	4	3	2	1
P. Homelessness addressed	5	4	3	2	1
Q. Energy conservation	5	4	3	2	1
R. Clean rivers, creeks, and springs	5	4	3	2	1
S. Increased local food production	5	4	3	2	1
T. Culturally diverse neighborhoods	5	4	3	2	1
U. Libraries and community centers are places for lifelong learning	5	4	3	2	1
V. More arts, music, and cultural amenities	5	4	3	2	1
W. Reduced traffic congestion	5	4	3	2	1
X. Improved public transportation	5	4	3	2	1
Y. Improved bicycle and walking system	5	4	3	2	1
1. Streetcar	5	4	3	2	1
2. More toll roads	5	4	3	2	1
3. High speed rail	5	4	3	2	1
4. Added freeway capacity	5	4	3	2	1
5. Other: _____	5	4	3	2	1

11. Which four of the statements from the list in Question #10 do you feel BEST represent YOUR VISION for the FUTURE of the City of Austin? [Using the letters and/or numbers above in Question #10, please write in the letters/numbers below for your 1st, 2nd, 3rd, and 4th choices, or circle 'NONE'.]

1st: _____ 2nd: _____ 3rd: _____ 4th: _____ NONE

12. If \$100 were available for the City of Austin to fund capital improvement initiatives how would you allocate the revenues among the categories of funding listed below? [Please be sure your total adds up to \$100.]

\$_____ Improve the transportation system

\$_____ Develop parks and recreation facilities (i.e. trails, athletic fields, pools, etc.)

\$_____ Acquire open space

\$_____ Repair and restore deteriorating infrastructure

\$_____ Develop public safety facilities (i.e. police and fire)

\$_____ Develop community facilities (i.e. libraries, arts, music, etc.)

\$_____ Develop health and human service facilities (i.e. community health centers, homeless shelters, etc.)

\$_____ Other

\$ 100 TOTAL

DEMOGRAPHICS: The following information will help us better understand the needs of our community.

13. How long have you lived in Austin?

____(1) 0-2 years

____(4) 11-20 years

____(2) 3-5 years

____(5) 21 years or more

____(3) 6-10 years

14. How many persons living in your household (counting yourself), are?

Under age 10 _____

Ages 25-34 _____

Ages 55-64 _____

Ages 10-19 _____

Ages 35-44 _____

Ages 65-74 _____

Ages 20-24 _____

Ages 45-54 _____

Ages 75+ _____

15. What is your age?

____(1) 18-24 years

____(4) 55-64 years

____(2) 25-29 years

____(5) 65-74 years

____(2) 30-44 years

____(6) 75+ years

____(3) 45-54 years

16. Do you own or rent your home?

____(1) Own

____(2) Rent

17. What is your highest level of education?

____(1) Less than high school

____(4) Bachelor's degree

____(2) High school graduate or equivalent

____(5) Graduate work

____(3) Some college/Associates degree

18. Would you say your total annual household income is:

____(1) Under \$25,000

____(4) \$75,000 to \$99,999
